

MacBook Air 13" Mid 2013 Battery Replacement

Internal Prerequisite. Disconnecting the battery.

Written By: Walter Galan

INTRODUCTION

Internal Prerequisite. Disconnecting the battery.

Step 1 — Battery Connector

i To ensure that everything is de-energized and won't turn on while you're working, it is recommended that you disconnect the battery.

- Grab the clear plastic pull tab attached to the battery connector and pull it toward the front edge of the Air to disconnect the battery from the logic board.

! Do not lift upward on the connector as you disconnect it.

To reassemble your device, follow these instructions in reverse order.
